

ASHIK SHEZAN

I am Shezan currently working as a Data Engineer at Leadbook. Having a good grasp of modern scripting languages such as Python and JavaScript I have efficiency in web crawling, automation, data analysis, visualization, & so on. I have experience in the field of web development as well. I build web applications using Django & ReactJS. As a motivated self-learner and a programming enthusiast, I am always ready to face new challenges to take my skills to the next level.
